

# **EXHIBIT 3**

IN THE UNITED STATES DISTRICT COURT  
NORTHERN DISTRICT OF ILLINOIS  
EASTERN DIVISION

JOSE ANDRES CAZARES, )  
as Special Administrator )  
of the Estate of ANDREW )  
CAZARES, Deceased and )  
FAUSTO T. MANZERA, as Special )  
Administrator of the Estate )  
of FAUSTO A. MANZERA, et al., )  
Plaintiffs, )  
-vs- ) No. 13 C 5626  
JOSEPH FRUGOLI, et al., )  
Defendants. )

The deposition of KRISTI ALLGOOD called  
for examination pursuant to Notice and the Rules  
of Civil Procedure for the United States  
District Courts pertaining to the taking of  
depositions, taken before Gina Callahan, a  
notary public within and for the County of  
Iroquois and State of Illinois, at 120 North  
LaSalle Street, Chicago, Illinois, on the 26th  
day of May, 2016 at the hour of 9:55 a.m.

1 happened. It can be -- epidemiology can be  
2 applied to anything, whether it is an illness, a  
3 risk factor, just looking for trends in what the  
4 data show. It doesn't have to be based on a  
5 disease, but it is part of a medical science.

6 Q. What do you mean by "trends that the  
7 data show"?

8 A. So you might say there is an increase  
9 in obesity rates over time, for instance.  
10 That's a trend.

11 Q. How would you determine that?

12 A. You would look at the obesity rates at  
13 some time point in the beginning and look at  
14 what happened at the latter time point and see  
15 if there is a difference.

16 Q. So you're comparing time frames?

17 A. Sometimes. Or you're comparing  
18 different groups of people, age, gender, race,  
19 things like that.

20 Q. Are you a member of any societies or  
21 associations?

22 A. American Public Health Association.

23 Q. Is that specific to epidemiology?

24 A. No.

1 Q. Never heard of it?

2 A. No.

3 Q. Do you have any education or experience  
4 in criminal justice?

5 A. No.

6 Q. Do you have any education or experience  
7 in criminology?

8 A. No.

9 Q. Do you have any education or experience  
10 in policing activities?

11 A. I have experience in -- from other  
12 cases.

13 Q. Are those the ones you worked on with  
14 Mr. Whitman?

15 A. Yes.

16 Q. What year did he pass away?

17 A. 2014.

18 Q. Other than assisting Mr. Whitman, do  
19 you have any other experience or education in  
20 policing activities?

21 A. No.

22 Q. Do you have any education or experience  
23 in law enforcement?

24 A. No.

1 Q. Do you have any education or experience  
2 in administrative investigations for law  
3 enforcement?

4 A. No.

5 Q. Do you have any education or experience  
6 in disciplinary actions for law enforcement?

7 A. Aside from the cases.

8 Q. Aside from the cases you worked on with  
9 Mr. Whitman?

10 A. No.

11 Q. Is the first case you have worked on  
12 without Mr. Whitman?

13 A. Yes.

14 Q. Do you have any education or experience  
15 in internal affairs of law enforcement?

16 A. No.

17 Q. Do you have any experience or education  
18 in police practices?

19 A. No.

20 Q. Have you ever personally investigated a  
21 complaint register?

22 A. No.

23 Q. Have you ever been involved in  
24 deciding, making a decision about the

1 allegations of a complaint register?

2 A. No.

3 Q. Am I correct that you have no  
4 background in the subject matter of police  
5 activities?

6 A. You are correct. Aside from the cases  
7 that I worked on.

8 Q. And how many cases where you worked on  
9 with Mr. Whitman?

10 A. Four.

11 Q. Do you remember the names?

12 A. Of the Bricca case, the Moore case,  
13 Adams and Padilla.

14 Q. It was kind of the same case, wasn't  
15 it?

16 A. They were with the same lawyer group,  
17 but they were separate records that had  
18 different allegations.

19 Q. Did you work on Bond?

20 A. No.

21 Q. So Bricca, Moore, Adams and Padilla?

22 A. Uh-huh.

23 Q. Yes?

24 A. Yes.

1 Q. The uh-huhs and huhs look the same when  
2 they type them.

3 A. Sorry.

4 Q. Just make sure if it is a yes, say yes;  
5 if it is no, say no. That will help the court  
6 reporter.

7 Now, were you -- in this case, you were  
8 retained by the plaintiffs' attorneys?

9 A. Dr. Whitman was retained.

10 Q. In this case?

11 A. Yes. And he passed away before we  
12 received the data, and then I was retained.

13 Q. When were you retained?

14 A. With Dr. Whitman. It was in the summer  
15 of 2013.

16 Q. Is there a written agreement regarding  
17 your retention?

18 A. There was a letter.

19 Q. And is it your understanding that the  
20 initial retention was of both you and  
21 Mr. Whitman?

22 A. Yes.

23 Q. Is that what the letter says?

24 A. I think the letter came after he

1 passed. I can't remember, honestly, the dates.

2 Q. Have you authored any reports in any  
3 case before this case?

4 A. Any reports on policing?

5 Q. Correct.

6 A. No.

7 Q. So the author of all the reports on  
8 those other cases, those other four cases was  
9 Dr. Whitman?

10 A. Yes.

11 Q. I think I asked you some of these  
12 questions, but let me make sure. You're not a  
13 specialist in criminology, are you?

14 A. No.

15 Q. You're not a specialist in sociology,  
16 are you?

17 A. No.

18 Q. You've never done any academic studies  
19 of police departments?

20 A. No.

21 Q. Have you ever looked at any other  
22 police department in any other city or town?

23 A. No.

24 Q. Have you ever taken any courses in

1 criminology?

2 A. No.

3 Q. Have you ever interviewed any police  
4 officers in any of their work with regard to any  
5 of the cases you've worked on?

6 A. No.

7 Q. Have you re-interviewed any police  
8 officers in the Cazares and Manzera case?

9 A. No.

10 Q. Have you consulted with any former  
11 police officers about any of your testimony in  
12 this case?

13 A. I don't think so.

14 Q. Did you consult with any former police  
15 officers on any of the other four cases you  
16 worked on?

17 A. No.

18 Q. Have you ever interviewed any heads of  
19 Internal Affairs Divisions of the Chicago Police  
20 Department?

21 A. No.

22 Q. Have you ever spoken with anyone who is  
23 employed by the Internal Affairs Division of the  
24 Chicago Police Department regarding anything to

1 do with your report in this case?

2 A. No.

3 Q. Have you ever spoken to anyone in the  
4 Internal Affairs Division of the Chicago Police  
5 Department about anything?

6 A. No.

7 Q. Have you discussed your work in this  
8 case with any other professionals in the field  
9 of epidemiology?

10 A. No.

11 Q. Are there peers in the epidemiology  
12 field of yours?

13 A. Yes.

14 Q. How would you describe -- well, give me  
15 an example of a peer of yours.

16 A. They would be similar, a similar job  
17 code, like they'd also be an epidemiologist or  
18 an evaluator, data analyst.

19 Q. When you say "job code" what do you  
20 mean?

21 A. Job title, I guess.

22 Q. Does every hospital have an  
23 epidemiologist?

24 A. No.

1       A.    Avon was a long one, but funding is  
2       harder to get these days, so it is year to year  
3       now.

4       Q.    Do you have to reapply every year?

5       A.    Yes.

6       Q.    And have you -- that process that you  
7       just described for the funding, have you ever  
8       done that with regard to any police activities?

9       A.    No.

10      Q.    Am I correct your only involvement with  
11      police cases is when you worked under  
12      Dr. Whitman until this case?

13      A.    Yes.

14      Q.    Have you been retained in any other  
15      cases since Dr. Whitman passed?

16      A.    No.

17      Q.    Am I correct that in this case, you  
18      were retained along with Dr. Whitman?

19      A.    Uh-huh. Yes.

20      Q.    So is it fair for me to say that you  
21      actually have never been individually retained  
22      as an expert in any case involving the police?

23      A.    Except this one.

24      Q.    Oh, after he passed?

1 A. Uh-huh. Yes.

2 Q. Okay. But I guess I'm -- I think I got  
3 it. But you were retained individually after he  
4 passed away?

5 A. Yes, I think.

6 Q. Okay. But I'm just trying to get a  
7 sense of has anyone sought to hire you in any  
8 case that Dr. Whitman had no involvement in  
9 whatsoever?

10 A. No.

11 Q. Let me hand you what we marked as  
12 Deposition Exhibit No. 1 which is a copy of the  
13 Deposition Notice and Rider.

14 Phil, it is the dep notice.

15 MR. BUNTIN: Okay. Thanks.

16 BY MR.ARGER:

17 Q. All right. Phil is on the phone there.  
18 We asked for a variety of materials to  
19 be produced, largely your file on the case, and  
20 I did get some materials from Mr. Newman. Did  
21 you produce everything responsive to this list  
22 on page 2?

23 A. Yes.

24 Q. Just for the record, can you describe

1 A. I was accepted to University of  
2 Michigan for a Ph.D.

3 Q. What specialty?

4 A. Epidemiology.

5 Q. When do you begin that?

6 A. September 5th, 2016. Yes.

7 Q. How long of a program is that?

8 A. Four years.

9 Q. What does mph?

10 A. Master's in public health.

11 Q. Again anything in your education where  
12 you took any classes related to police or  
13 administrative investigation?

14 A. No.

15 Q. Professional experience section on page  
16 1, anything in your background related to police  
17 or administrative investigations?

18 A. Just the self-employed contractor.

19 Q. That's at the very back, though, isn't  
20 it?

21 A. Well, it is listed here on the front  
22 page. It is the third job.

23 Q. Oh, I see.

24 Is that just the four cases you worked

1 A. No.

2 Q. Now, you've got peer review articles  
3 listed under your publications. Did any of  
4 those peer review articles involve the police or  
5 administrative investigations?

6 A. No.

7 Q. Now, these peer review articles, that's  
8 different than the problem statements that are  
9 peer reviewed, right?

10 A. Right. So a grant is different than a  
11 peer reviewed article.

12 Q. Okay. Describe to me the process of  
13 the articles being peer reviewed.

14 A. So that varies by the journal, but in  
15 general, you submit an article to an editor at a  
16 journal. The editor will review it and  
17 determine if he or she wants to send it out to a  
18 group of peer reviewers. Sometimes you request  
19 people to review it and sometimes you don't.  
20 They send it out. The reviewers will say they  
21 accept the review or not. It takes about a  
22 month. They'll read it, give comments back, and  
23 decide whether you should have the article  
24 accepted or not.

1 for more information than I've gotten in the  
2 past from other cases.

3 Q. Did you use any of the information that  
4 you had from your other four cases for your  
5 report in this case?

6 A. No.

7 Q. Looking through the rest of your  
8 curriculum vitae -- well, let me ask you this.

9 Am I correct that your report in this  
10 case was not peer reviewed?

11 A. You are correct.

12 Q. Any particular reason why?

13 A. Actually, no. I take that back. It  
14 was peer reviewed.

15 Q. By who?

16 A. Jeff Alpert.

17 Q. Have you ever spoken to Mr. Alpert?

18 A. On the telephone.

19 Q. How many times?

20 A. Once.

21 Q. When was it?

22 A. Sometime in -- I don't know --  
23 December, maybe. Maybe January.

24 Q. Do you know if he's done a report in

1 this case?

2 A. I do not.

3 Q. Have you ever seen any report that  
4 Mr. Alpert did in this case?

5 A. No.

6 Q. Have you ever seen the reports of any  
7 other -- anyone else in this case?

8 A. Dr. Roberts.

9 Q. You did review Dr. Roberts' report?

10 A. Yes.

11 Q. Did you review the report of Matthew  
12 Hickman?

13 A. No.

14 Q. Did you review the report of Jeffrey  
15 Noble?

16 A. No.

17 Q. Did you review the report of Lou  
18 Reiter?

19 A. No.

20 Q. Did you review any depositions in this  
21 case?

22 A. No.

23 Q. Have you reviewed the Complaint in this  
24 case?

1 A. Against Detective Frugoli, yes.

2 Q. The Complaint. When did you get that?

3 A. With the disc of other complaints.

4 Q. Oh. I mean the Complaint that was  
5 filed in the courthouse.

6 A. Oh, no. Sorry. No.

7 Q. You're talking about the complaint  
8 register?

9 A. Complaint register, yes.

10 Q. Have you reviewed any of the pleadings  
11 that were filed in the courthouse regarding this  
12 case?

13 A. No.

14 Q. Have you reviewed any of the accident  
15 reports regarding this case?

16 A. If they were included in the CR file, I  
17 did.

18 Q. So the only documents you reviewed are  
19 the CR files themselves?

20 A. Yes. And then there was a list of  
21 complaints against the detective I also had.

22 Q. Detective Frugoli?

23 A. It was one or two pages, yes.

24 Q. And I think you listed that in your

1 report, right?

2 A. Yes.

3 Q. Did you ask for your report to be peer  
4 reviewed in this case?

5 A. No.

6 Q. Do you know why Mr. Alpert was asked to  
7 peer review your report in this case?

8 A. No.

9 Q. When you spoke with Mr. Alpert, what  
10 did you talk about?

11 A. We talked about the report and just the  
12 data in the report.

13 Q. How long was the call?

14 A. Maybe half hour.

15 Q. Who was on the call besides you and  
16 Mr. Alpert?

17 A. No one.

18 Q. Have you spoken with Mr. Alpert at any  
19 other time other than that one call?

20 A. There was an e-mail.

21 Q. Other than that e-mail communication?

22 A. No.

23 Q. Other than the one call with Dr. Alpert  
24 or Mr. Alpert, have you had any other

1 A. No.

2 Q. Do you know if he's reviewed anything  
3 other than your report in this case?

4 A. I have no idea what he's reviewed.

5 Q. And you have not seen any report from  
6 him, have you?

7 A. No.

8 Q. Do you have any plans to do anything  
9 further with regard to data collection or  
10 evaluation in this case?

11 A. No.

12 Q. Have you asked the plaintiff's  
13 attorneys for any additional information for you  
14 to review in this case?

15 A. No.

16 Q. Is there anything further you feel you  
17 need to do to render the opinions you've reached  
18 in this case?

19 A. No.

20 Q. Have you been asked to testify at trial  
21 in this case?

22 A. Not yet.

23 Q. Other than potentially being asked to  
24 testify at trial, is there anything else you

1 your civil rights cases on your CV?

2 A. I didn't author them.

3 Q. Is the report in this case, in our  
4 case, the Manzera and Cazares case, the first  
5 report you've actually authored?

6 A. Yes, for policing things, yes.

7 Q. You've got a variety of presentations  
8 and invited lectures listed on your curriculum  
9 vitae, and am I correct the only one that  
10 involves policing activities is the second one  
11 on page 9 that talks about the Sinai Urban  
12 Health Institute monthly staff meeting in  
13 October 2014?

14 A. Yes.

15 Q. Is that after Dr. Whitman had passed?

16 A. Yes.

17 Q. Tell me what are the monthly staff  
18 meetings?

19 A. They are updates of projects or grants  
20 or publications for the department.

21 Q. So is that a meeting? How long do the  
22 meetings last?

23 A. Two hours.

24 Q. Is that where the whole department just

1 talks about projects they're working on?

2 A. Not everybody talks, but usually there  
3 is an agenda and if something happened over the  
4 month, the person usually talks about it.

5 Q. Am I correct then that you at that  
6 monthly staff meeting on October 2014 would have  
7 indicated that you're working on this case?

8 A. No.

9 Q. What did you talk about?

10 A. The department asked me to summarize  
11 what I had done with Dr. Whitman during that  
12 time, and then that's what I did.

13 Q. Were any of the other four cases still  
14 ongoing when Dr. Whitman passed away?

15 A. No.

16 Q. If you remember.

17 A. I'm not -- Padilla might have. He  
18 testified in the Padilla trial shortly before he  
19 passed. I'm not sure if it was complete at that  
20 point or not.

21 Q. And you've never testified in any case,  
22 have you?

23 A. No.

24 Q. Have you ever been qualified as an

1 expert witness in federal court?

2 A. No.

3 Q. Have you ever been qualified as an  
4 expert witness in state court?

5 A. No.

6 Q. On page 11 in your CV, you've got a  
7 listing of your professional training. Did any  
8 of that training involve policing or  
9 administrative investigations?

10 A. No.

11 Q. You've got various professional  
12 affiliations listed on page 11, as well. Do you  
13 see that?

14 A. Uh-huh.

15 Q. Yes?

16 A. Yes.

17 Q. None of those involve policing or  
18 administrative investigations, do they?

19 A. No.

20 Q. You've got professional service listed,  
21 and ad hoc peer reviewer. Is that what you were  
22 talking about earlier when you said you did some  
23 peer review work yourself?

24 A. Yes.

1 want to make to the report?

2 A. No.

3 Q. All right. Are you aware of what the  
4 goals of a discipline system in a metropolitan  
5 police department are?

6 A. No.

7 Q. Do you know what methods police  
8 supervisors use to correct officers' misconduct?

9 A. Only if it is documented in the CRS.

10 Q. You didn't do any independent research  
11 in that regard?

12 A. No.

13 Q. You don't have any independent  
14 knowledge in that regard, do you?

15 A. No.

16 Q. So how would you characterize your  
17 report? Is it a statistical report?

18 A. Yes.

19 Q. What's the difference between  
20 statistics and epidemiology?

21 A. Statistics is a mathematics science.  
22 Epidemiology is a medical and social science.

23 MR. ARGER: Can you read that back for me,  
24 please?

1 A. No.

2 Q. Have you ever asked anyone why  
3 Dr. Alpert was reviewing your report in this  
4 case?

5 A. No.

6 Q. Does it seem strange to you that he  
7 would review it?

8 A. No.

9 Q. Did he tell you he was going to write a  
10 written report?

11 A. No.

12 Q. At the last sentence of paragraph 2 of  
13 page 1 of your report, it says, you have  
14 published 12 peer reviewed articles. Are those  
15 the ones that are listed on your CV?

16 A. Yes.

17 Q. Now, the next paragraph says you were  
18 the data manager and primary analyst in four  
19 other legal cases. Those are the four cases  
20 with Dr. Whitman we talked about?

21 A. Yes.

22 Q. If you were the data manager and the  
23 primary analyst, what was Dr. Whitman's role?

24 A. He was the expert.

1 Q. And again, you did not use any of the  
2 materials from those four other cases as a basis  
3 for your opinions in this case, correct?

4 A. No. Correct.

5 Q. The next paragraph which is paragraph  
6 number 4 it says, the law firm of Cooney and  
7 Conway retained me in July of 2013. Is that  
8 when both you and Dr. Whitman were retained?

9 A. Yes.

10 Q. And at that time the rate of \$100 an  
11 hour was agreed upon for your time?

12 A. Yes.

13 Q. Do you recall what the rate was for  
14 Dr. Whitman's time?

15 A. I do not.

16 Q. He would have been higher?

17 A. I assume so.

18 Q. The last part of that sentence -- I'm  
19 sorry. The next sentence, you talk about  
20 abstracting data from the provided CRs,  
21 analyzing the data and making inferences?

22 A. Yes.

23 Q. What do you mean by inferences?

24 A. Well, you have a sample of data. The

1       A.    The things that have statistical  
2   significance are probably not inferences because  
3   they here not due to chance.

4       Q.    So you've got an NS written next to --  
5   what's the P value?

6       A.    P value is the probability of something  
7   being due to chance or not.  If it exceeds .05,  
8   it is probably due to chance.  If it is lower  
9   than that, it is considered statistically  
10  significant.

11      Q.    But I need to understand that better,  
12   and I know it is a couple pages in the report,  
13   but I might as well talk about it now.  What is  
14   statistical significance?

15      A.    It means that you found a difference,  
16   not only was it meaningful but the math behind  
17   it shows that it is not due to chance.

18      Q.    But how do you determine that?

19      A.    Apply the statistical test to the data  
20   and the computer tells you if it is  
21   statistically significant or not.

22      Q.    What type of program is it on the  
23   computer?

24      A.    It is called SAS.  It is a statistical

1 software.

2 Q. Is that an acronym for something?

3 A. Maybe. It is the name of the company.

4 Q. How do you spell it?

5 A. S-A-S.

6 Q. And SAS has a statistical test?

7 A. Yes.

8 Q. What is the name of the test?

9 A. Depending on what you're looking at, I  
10 use the wilcoxon signed-ranked test and to  
11 compare medians, and I used the Mantel-Haenszel  
12 chi-square test using the rank for comparing  
13 percentages.

14 Q. And you describe those on one of these  
15 pages. On page I have as page 5, it is the two  
16 paragraphs right above where it says the  
17 assignment, right?

18 A. Uh-huh.

19 Q. Correct?

20 A. Yes.

21 Q. Okay. I guess and this is where you  
22 talk about statistical testing significance. So  
23 I'm trying to figure out how -- I'm trying to  
24 figure out how you just -- how you can make an

1 inference or declare something to be

2 statistically significant versus something

3 that's not a statistically significant?

4 A. The statistical test measures that.

5 Q. So this program does it?

6 A. Yeah.

7 Q. So do you have any input in that?

8 A. The data.

9 Q. So you just put the data in there?

10 A. And it spits out.

11 Q. The computer program spits it out  
12 whether it is statistically significant or not?

13 A. Yes.

14 Q. But how is that? I mean who? Is there  
15 a governing body that says whether SAS is  
16 statistical test is reasonable or not?

17 A. It is the standard programming package  
18 used by almost every statistician. There is a  
19 few other makers of those things. But the  
20 statistical tests are what they are. Those are  
21 they're well established in statistics.

22 Q. What is this Wilcoxon test?

23 A. It is looking at the differences  
24 between medians.

1 A. Right.

2 Q. So did you change it?

3 A. No.

4 Q. This SAS program, is that something I  
5 could buy?

6 A. Yeah.

7 Q. Is it expensive?

8 A. It can be, yeah.

9 Q. How much is it?

10 A. With our license, it is about 2,500 a  
11 year. And we buy multiple licenses to keep the  
12 price down.

13 Q. So you talked earlier about doing the  
14 plotting. Do you physically actually do the  
15 plotting or is that something that the SAS does?

16 A. SAS does it.

17 Q. So how --

18 A. You could do it by hand.

19 Q. How would it be different if I bought  
20 the SAS program and I put in all of the CR  
21 findings, would that be any different than what  
22 you found?

23 A. No.

24 Q. So I could pretty much come to these

1 conclusions based on if I put the information in  
2 the SAS program, just like you did?

3 A. I believe so. Yeah. If you applied  
4 the right statistic.

5 Q. And what's the difference between the  
6 wilcoxon test and what was the other one you  
7 said?

8 A. The Mantel-Haenszel.

9 Q. Mantel-Haenszel which is -- one of them  
10 continuous variables and one is categorical  
11 variable?

12 A. Right. So you do median based on age,  
13 for example, it is a continuous variable. So  
14 you would take an average or you would take the  
15 median or both, and you would look at the  
16 difference between the groups based on the  
17 medians or means using the wilcoxon test. When  
18 you have categories like race, for example, then  
19 you would use the Mantel-Haenszel test.

20 Q. why?

21 A. It is the standard statistic for  
22 categorical variables.

23 Q. who tells you that it is the standard?

24 A. Statisticians tell us.

1 A. Yes.

2 Q. What is a code of silence?

3 A. It means when officers don't report the  
4 misconduct of other officers or that there is a  
5 sort of patterns of taking advantage of maybe  
6 less discipline for infractions that doesn't get  
7 changed by the people who can change them.

8 Q. If we go to Table 1, you reviewed 66 CR  
9 files?

10 A. Yes.

11 Q. In addition to that, you reviewed 18  
12 others of Detective Frugoli?

13 A. Yes.

14 Q. So you reviewed a total of 84 CRS in  
15 this case?

16 A. I don't know if that's the sum. Yeah.

17 Q. All right. Well, let's -- that's what  
18 I get for jumping around.

19 Let's go to page 2. You received a DVD  
20 on March 27th, 2015 by hand delivery that had 85  
21 PDF files on it; is that right?

22 A. Okay.

23 Q. And 65 CRS were for DUI or  
24 alcohol-related complaints against CPS members?

1 A. Yes.

2 Q. You had one PDF that had just a list of  
3 Mr. Frugoli's complaints, right?

4 A. Yes.

5 Q. And then you had 19 CR files regarding  
6 CRs alleged against Mr. Frugoli?

7 A. Yes.

8 Q. One of those CR files was the one for  
9 the accident involved in this case, right?

10 A. Yes.

11 Q. So that's why that makes the 65 CRs for  
12 DUI 66?

13 A. Right.

14 Q. So you've got the 65 CRs, plus the 19  
15 CRs from Mr. Frugoli, that's how you get 84 CRs?

16 A. Yes.

17 Q. And those are the only CR files you  
18 reviewed in this case?

19 A. Yes.

20 Q. Is there any reason why you did not  
21 review complaint register files for officers who  
22 had DUI or alcohol-related complaints when they  
23 were on duty?

24 A. There were some on-duty complaints in

1 that file.

2 Q. I think you indicate in your report  
3 there were three of the 66 you reviewed?

4 A. That sounds right.

5 Q. But I'm talking about were there any  
6 others beyond the 66 that were involved?

7 A. No.

8 Q. Did you ask?

9 A. No.

10 Q. Were you told there were additional CR  
11 files?

12 A. No.

13 Q. I forgot what you said. You have not  
14 reviewed Mr. Lou Reiter's report in this case,  
15 have you?

16 A. No, I have not.

17 Q. Did you -- you were talking when you do  
18 your funding for grants, that you will ask for  
19 information that you would then collect and  
20 review; is that right?

21 A. When I write my grants, I ask the  
22 funder for information? No.

23 Q. I thought that's what you said.

24 A. No. I will tell the funder what I want

1 to do.

2 Q. Okay.

3 A. They'll either agree to it or not, and  
4 then I will get the information wherever I need  
5 it.

6 Q. Did you tell the plaintiffs' attorneys  
7 in this case what you wanted to do in this case?

8 A. No.

9 Q. Did they give you the information and  
10 then they asked you to answer some questions  
11 based on it?

12 A. Yes.

13 Q. Is that unusual for your line of work  
14 where you don't have input in what you're  
15 reviewing?

16 A. Not really.

17 Q. A lot of times people just give you  
18 stuff and say --

19 A. Yes.

20 Q. -- give me some answers?

21 A. Yes.

22 Q. But am I correct you were not involved  
23 in any way in deciding what information you were  
24 going to review for this case?

1 A. No.

2 Q. what I said was correct?

3 A. what you said was correct.

4 Q. In the middle of the data sources  
5 section on page 2, you have a sentence called  
6 the final page of this file contained a SPAR  
7 report indicating that there were no sustained  
8 findings. Do you see that?

9 A. Yes.

10 Q. what is a SPAR report?

11 A. That's the title of the piece of paper  
12 that I was given. It just said SPAR. I don't  
13 know what it stands for.

14 Q. That was my question. Do you know what  
15 SPAR stands for?

16 A. No.

17 Q. Did you ask for any SPAR reports in  
18 this case?

19 A. No. They were in most of the CR files,  
20 though.

21 Q. Did you ask anyone what the SPAR report  
22 meant?

23 A. No. I mean, the data had when there  
24 was data on it, it had the sustained findings.

1 Q. The reason I asked, if you look at the  
2 bottom of page 1, you say you were provided  
3 complete CR files for DUI or alcohol-related  
4 complaints from members of the CPD for CRs coded  
5 as 02D and were initiated from May 10, 2003 the  
6 through April 28, 2009.

7 In the next sentence says, with any CR  
8 work DUI, alcohol-related incidents that  
9 occurred from May 10th, 2003 through April 10th,  
10 2009. Maybe there just weren't any from April  
11 10 to April 28th. I don't know.

12 A. I don't know. Those were the dates in  
13 the files.

14 Q. Did you have any input in what dates to  
15 use?

16 A. No.

17 Q. Is that what was given to you?

18 A. Yes.

19 Q. Do you know what is significant about  
20 May 10, 2009?

21 A. I believe that is the incident of  
22 Detective Frugoli.

23 Q. I meant May 10, 2003.

24 A. No, I don't know.

1 Q. April 10th, 2009 was the date of the  
2 accident?

3 A. Yes.

4 Q. Involving Mr. Frugoli, right?

5 A. Yes.

6 Q. But in here, you start with the date of  
7 May 10, 2003. Do you know what the significance  
8 of that date is?

9 A. No, I do not.

10 Q. Did you ever ask anybody?

11 A. No.

12 Q. At the last phrase on page 1 it says,  
13 each PDF was assumed to be the complaint  
14 investigation?

15 A. Yes.

16 Q. Did you ever confirm that?

17 A. No.

18 Q. Did you ever ask anybody if these were  
19 complete?

20 A. No.

21 Q. So you're just assuming they are?

22 A. Yes.

23 Q. So from when you and Dr. Whitman were  
24 retained in July of 2003 until you received the

1 There is a lot of variables.

2 Q. Okay. Thank you.

3 was there anything missing in any of  
4 the CR files that you reviewed?

5 A. There was not a lot of information on  
6 the age of the officer. There was some redacted  
7 information. What happened through the court  
8 system, there was a lot of missing information  
9 on that. There was sometimes missing data on  
10 the blood alcohol levels, when it was measured,  
11 if it was measured.

12 Q. Did you ever ask?

13 A. No.

14 Q. For, to get that missing information?

15 A. No.

16 Q. Would it change any of your conclusions  
17 if you had some additional information?

18 A. It might.

19 Q. How might it?

20 A. Just depends on what it showed. If  
21 there were more people with measurements, there  
22 might be differences, but it is not a guarantee.  
23 It could also make it look worse.

24 Q. So you just don't know what it would

1 do, correct?

2 A. I can't answer that without the data.

3 Q. You have a description of what's in the  
4 CR files at the bottom of page 2 of your report.

5 Am I correct you do not have any  
6 experience as to what should or should not be in  
7 a CR file, do you?

8 A. I do not.

9 Q. On page 3, you've got what you've  
10 titled relevant definitions?

11 A. Yes.

12 Q. How did you choose what words to  
13 define?

14 A. I wanted the reader to know what I was  
15 referring to when I used these acronyms for  
16 things so that there wasn't any confusion on  
17 what they were.

18 Q. In the definition of finding, you say  
19 that every allegation includes a finding; is  
20 that right?

21 A. Yes.

22 Q. Is it your understanding that there are  
23 three different findings that the Chicago Police  
24 Department can find on a CR?

1 A. Yes.

2 Q. Next one says failure to report, the  
3 definition of failure to report. Where did you  
4 get the words failure to report from?

5 A. I did learn that from another case.  
6 That's a complaint as one of the types of  
7 misconduct that someone can get into a CR.

8 Q. Were you told to look at failure to  
9 report in this case?

10 A. No.

11 Q. You just include it on your own?

12 A. Yes.

13 Q. Because of your other four cases with  
14 Dr. Whitman?

15 A. Yes.

16 Q. And again, this is another yes/no  
17 question that you put on your form?

18 A. Yes.

19 Q. So that when you read the complaint  
20 register file, you would determine whether there  
21 was a failure to report or not?

22 A. Right.

23 Q. How did you determine if there was a  
24 failure to report?

1       A.    So I would review all of the files and  
2   the supporting documentation from the summary of  
3   the investigative officer and see if the officer  
4   or a witness who was in the car with the  
5   officer, who also was an officer filed a report  
6   of what happened or what their experience was in  
7   that arrest.  If there was no report or no  
8   documentation of a telephone call by the accused  
9   officer, then it is failure to report.

10       MR. ARGER:  Read back that answer for me,  
11   please.

12                       (Whereupon, the record was read  
13                       as requested.)

14   BY MR. ARGER:

15       Q.    Do you know if there is any rules and  
16   regulations in this Chicago Police Department  
17   about failure to report another officer's  
18   misconduct?

19       A.    Through the reviewing of the files,  
20   there was definitely indication that it is an  
21   expected -- it is expected.

22       Q.    Is there a rule about it?

23       A.    I assume so.  They have a complaint for  
24   it.

1 Q. Do you know?

2 A. No.

3 Q. Were one of the allegations of -- I  
4 guess what I'm trying to figure out is are you  
5 making an inference that there was a failure to  
6 report just on the fact that there was no report  
7 or telephone call?

8 A. Yes.

9 Q. So when you say failure to report, you  
10 are not talking about situations where the  
11 officer was charged with an allegation of  
12 failure to report?

13 A. No, if they had a complaint listed as  
14 one of the allegations as failure to report, it  
15 is not considered that. I mean, they would be  
16 considered that but...

17 Q. When you said failure to report, you're  
18 not talking about where they were formally  
19 charged with a failure to report, correct?

20 A. No. It was they failed to report and  
21 they should have been charged. So it was -- the  
22 allegation is not included in the CR.

23 Q. I think we're talking about the same  
24 thing. I just want to make sure.

1       A.    In the process of investigating that  
2   complaint, so the wife complained against him,  
3   they found that he also had a DUI arrest that  
4   was not reported and it was months prior to the  
5   initial, the reason why the CR was initiated.  
6   So it happened outside of Chicago. It wasn't  
7   through dispatch. It wasn't through -- it  
8   wasn't reported in the channels that would  
9   normally go through when you arrest an officer.  
10   But he did have a DUI arrest outside of Chicago.  
11   So that wasn't reported until maybe six months  
12   later or longer.

13       Q.    So you're saying in that case, that  
14   person should have reported himself?

15       A.    Yes.

16       Q.    That he got a DUI outside of the City  
17   of Chicago?

18       A.    Yes.

19       Q.    What is your -- do you have an  
20   understanding whether there is any rules within  
21   the Chicago Police Department about officers  
22   reporting when they get a DUI outside of the  
23   City of Chicago?

24       A.    I do not, but I assume so from how the

1. CRs were investigated. There is also a  
2. complaint specifically called failure to report.  
3. So someone can just have a CR that says failure  
4. to report on it as an allegation. So there has  
5. to be a rule associated with that.

6. Q. Are you aware of any DUI or  
7. alcohol-related incidents involving Chicago  
8. police officers failing to report on themselves  
9. other than the ones you looked at in this case?

10. A. No.

11. Q. If we go to the bottom of page 3, you  
12. then talk about the abstraction process.

13. A. Uh-huh.

14. Q. You talk about a data collection tool  
15. was generated?

16. A. Yes.

17. Q. Is that the form that's Appendix 1?

18. A. Yes.

19. Q. And what did you prepared that  
20. yourself?

21. A. Yes.

22. Q. What did you base that on?

23. A. I looked at one or two of the CRs.  
24. After I read through them and found out what was

1       A.    It is not in the report, it is missing.  
2    If it is not there, you can't abstract data that  
3    doesn't exist.

4       Q.    How did you account that for in your  
5    tables?

6       A.    There is usually a row that shows the  
7    number that we're missing or the sample size is  
8    noted differently than the 66 records.

9       Q.    Page 4, you have the different  
10   information you gathered from each CR file.  
11   Again, that's information you would have put on  
12   your data collection form?

13       A.    I'm sorry.  I don't know you repeat  
14   that.

15       Q.    You've got the information gathered  
16   from each CR file categorized on page 4, right?

17       A.    Uh-huh.

18       Q.    The third bullet point talks about  
19   information about the DUI or alcohol-related  
20   incident, and one of the first things you  
21   mention is whether it occurred on or off duty?

22       A.    Yes.

23       Q.    My question is:  Did you ever ask for  
24   the on-duty CR files in this case?

1 A. No.

2 Q. No?

3 A. No.

4 Q. Do you know if there are any on-duty CR  
5 files?

6 A. Only the ones that were included.

7 Q. At the bottom of page 4 you talk about  
8 data management that the final working data set  
9 is based off of the cleaned Excel file. Is that  
10 what we marked as Exhibit 4?

11 A. Yes.

12 Q. Okay. Page 5, you talk about  
13 statistical tests of significance. I think  
14 we've gone through that.

15 Did it ever occur to you that the  
16 sample size you were reviewing in this case was  
17 too small to make any findings?

18 A. You can still make findings on small  
19 sample sizes.

20 Q. But how can you determine whether  
21 that's reliable or not?

22 A. That's why you use the statistics.

23 Q. That SAS program?

24 A. Yes.

1 Q. At the bottom of page 5, you've listed  
2 the assignment.

3 A. Uh-huh.

4 Q. And you've got two questions listed.  
5 Are those questions that the plaintiffs'  
6 attorneys gave you?

7 A. Yes.

8 Q. Did you come up with any questions on  
9 your own?

10 A. No.

11 Q. Question 1 says, did the Chicago police  
12 officers have reason to believe in 2009 that  
13 they could drink and drive with impunity,  
14 without fear of meaningful punishment. Do you  
15 see that?

16 A. Yes.

17 Q. What do you mean by impunity?

18 A. That they wouldn't get punished.

19 Q. And what do you mean by meaningful  
20 punishment?

21 A. If the discipline associated with the  
22 incident was meaningful to that officer or if it  
23 was in line with the infraction.

24 Q. How do you determine what is meaningful

1 A. It is stated in the discussion.

2 Q. Tell me now.

3 A. That I think that they did.

4 Q. What do you base that on?

5 A. On the tables that I presented in this  
6 report.

7 Q. Which ones specifically answered that  
8 question?

9 A. I would say the -- let's see. Table 1  
10 with the changes in discipline, changes in  
11 suspension.

12 Q. Anything else support your opinion on  
13 question 1?

14 A. No, it is basically about discipline.

15 Q. Now, I notice you said changes in  
16 discipline and changes in suspension from Table  
17 1, right?

18 A. Uh-huh.

19 Q. Would you agree with me that 82 percent  
20 of the CRs were sustained?

21 A. Yes.

22 Q. And how do you decide that you're going  
23 to rely on the changes in discipline versus the  
24 sustained rate?

1 A. There are two different things.

2 Q. why would you say you agree with me 82  
3 percent is a high sustained rate?

4 A. It is higher than any other I've seen,  
5 yes.

6 Q. Do you feel that that -- that high  
7 sustained rate would be an eternity?

8 A. Not necessarily.

9 Q. why not?

10 A. Because if they don't get disciplined  
11 for that sustained rate, it is really  
12 meaningless.

13 Q. Do you agree with me -- all right.  
14 Let's look at this, the suspensions.

15 MR. ARGER: I'm sorry. Can you read back her  
16 answer?

17 (Whereupon, the record was read  
18 as requested.)

19 BY MR. ARGER:

20 Q. How many of the sustained cases did not  
21 get disciplined at all?

22 A. Let's see. No initial discipline.  
23 There were 18 percent.

24 Q. where are you getting that from?

1 that's how you get your 19 percent?

2 A. Well, you add the 10 percent and the 9  
3 percent and that's 19 percent, yes.

4 Q. It is 13 out of 66 or 19 percent?

5 A. Yes.

6 Q. But you agree with me if you take out  
7 the seven retired, resigned or leave of absence,  
8 you're only left with less than 10 percent?

9 A. You're left with the 9 percent in that  
10 line, yeah. I'm not really understanding what  
11 that question was.

12 Q. Do you have any experience with police  
13 board hearings?

14 A. No.

15 Q. Do you have any experience with police  
16 employment agreements?

17 A. No.

18 Q. Do you know anything about the  
19 grievance process?

20 A. No, just what was included in the CRS.

21 Q. Do you have any idea why any of these  
22 initial recommended disciplines were changed?

23 A. Some of them went through grievance  
24 processes, yeah.

1 discipline, why did you choose 30 days as a  
2 parameter?

3 A. That's what most of them had initial  
4 discipline with, is 30 days.

5 Q. Do you agree that 30 days is meaningful  
6 and significant?

7 A. Could be.

8 Q. Well, is it?

9 A. It is not really in line with the  
10 state, so probably not.

11 Q. Well, is it in line with other police  
12 departments?

13 A. I don't know.

14 Q. Is it in line with the standards for  
15 police discipline?

16 A. I don't know.

17 Q. You're comparing the CR investigation  
18 to what a court of law would do with a DUI  
19 charge?

20 A. I am comparing it to what the State of  
21 Illinois claims they do for regular citizens who  
22 get pulled over for a DUI.

23 Q. All right. What about those cases  
24 where there was no DUI allegation in the CRS

1       A.    Then through the process, either  
2    through mediation or whatever reason, the  
3    initial finding, the initial discipline  
4    recommended by the internal affairs officer gets  
5    changed by some level in the department. That's  
6    what I think is more meaningful.

7       Q.    But you don't know why it was changed,  
8    do you?

9       A.    Sometimes, yeah. Sometimes they had a  
10   mediation. In the cases where they didn't have  
11   a DUI, I mean, they were suspected for a DUI but  
12   they had other things, like there was one where  
13   he had a brain tumor and that's why he was  
14   driving erratically. Those wouldn't. They  
15   would be viewed differently.

16      Q.    But I'm trying to go back to your  
17   answer to you answered the question that Chicago  
18   police officers have reason to believe in 2009  
19   they could drink and drive with impunity, right?  
20   And you're basing that on your review of 66 CR  
21   files from 2003 to 2009, right?

22      A.    Yes.

23      Q.    And the only reason you gave me, the  
24   only data you gave me that supported your

1 opinion was that there was a change in  
2 discipline and a change in the suspensions,  
3 right?

4 A. Yes.

5 Q. And that's -- my question is: But  
6 there still were an overwhelming number that  
7 were disciplined. Are you quantifying to say  
8 there has to be a certain percentage to get  
9 disciplined or do you not quantify it that way?

10 A. I don't think I quantified it at all.  
11 I just reported.

12 Q. Tell me how many people of the 66 that  
13 you reviewed did not get any discipline.

14 A. Well, there was 68 people. The final  
15 discipline, there were seven that did not serve  
16 any discipline because they were retired,  
17 resigned or they had a leave of absence.

18 Q. And again, you don't know why they did  
19 that, right?

20 A. No, I do not.

21 Q. Other than those seven, how many did  
22 not receive discipline at all?

23 A. There were six that had no initial  
24 discipline as well.

1 Q. And two of those were deceased?

2 A. Yes.

3 Q. But the four that didn't get  
4 disciplined initially are still the only four  
5 that ultimately did not get a discipline, right?

6 A. Except for those that retired. There  
7 is not discipline there.

8 Q. Okay. But that's -- so are you  
9 answering the question affirmatively, that  
10 police officers have reason to believe they can  
11 drink and drive with impunity based solely on  
12 the seven?

13 A. No, it is based on the amount of change  
14 in the discipline that was given out.

15 Q. well, let's talk about the amount.  
16 what's the significant discipline in your  
17 opinion?

18 A. I would say that they would have to  
19 have -- if their license is suspended for 12  
20 months, then they should have discipline  
21 associated with that 12 months.

22 Q. what do you base that on?

23 A. The state tells me that that's the way  
24 it is.

1 Q. Does the state say that that's what  
2 internal police investigations are supposed to  
3 find?

4 A. No, that's how I would be treated.

5 Q. How are you -- what's in your  
6 background that gives you the ability to make  
7 that opinion?

8 A. I read the report from the State of  
9 Illinois. You could get the same.

10 Q. So I could make the same opinion?

11 A. You could.

12 Q. So are you any different from me making  
13 that opinion?

14 A. Yeah, but I have a background in  
15 statistics. You probably don't. I don't know.

16 Q. I took the class in college.

17 A. Like everybody has.

18 Q. You're not using your statistical  
19 background; you're just reading a state book  
20 that says this is what you get?

21 A. I'm comparing it against what was in  
22 the data. That's the comparison.

23 Q. I'm just saying what is in your  
24 background that is different from mine that says

1 that the officers acted with impunity, could act  
2 with impunity and drink and drive?

3 A. I don't know your background so I can't  
4 answer that.

5 Q. So from someone who doesn't have your  
6 statistical background?

7 A. I don't know. I can't answer it.

8 Q. I'm trying to understand. With regard  
9 to the number of days suspension, it is your  
10 opinion that it should be equal to what the law  
11 gives you as a punishment, right?

12 A. Uh-huh.

13 Q. But there is nothing in your background  
14 that gives you the basis to say that, is there?

15 A. No, but there is a comparison report  
16 that states that that is what is supposed to  
17 happen; but if that doesn't happen because these  
18 people are police officers, that is a problem.

19 Q. I will move to strike everything after  
20 no as unresponsive.

21 But what in your background gives you  
22 the expertise to say that -- how is that any  
23 different than anybody else just reading that  
24 book and saying that?

1 was unclear?

2 A. So when the -- for the other officer,  
3 say, they're usually with someone. So there  
4 were two CRs where there was another officer in  
5 the car with them. And in those cases, I don't  
6 believe the other officer reported on the  
7 driver. So they would be counted as a failure  
8 to report because they didn't report on what  
9 they saw for the DUI.

10 And then for the unclear, there just  
11 sometimes was not or in the one case, there was  
12 not -- it wasn't very obvious who reported it.  
13 So rather than coding it as failure to report,  
14 it is just too unclear. You couldn't tell.

15 Q. Well, if it wasn't clear whether --  
16 these are cases where you said there was no --  
17 there was failure to report, right?

18 A. Right. But there was no allegation of  
19 failure to report listed in the list of  
20 allegations for the CR.

21 Q. If we go back to page 5, the second  
22 question you were asked by the plaintiffs'  
23 attorneys was, do any of the data speak to  
24 whether a code of silence exists in the CPD,

1 right?

2 A. Uh-huh.

3 Q. They asked you that question?

4 A. Yes.

5 Q. Again, you did not come up with these  
6 questions, did you?

7 A. No.

8 Q. So the question, do any of the data  
9 speak to whether a code of silence exists in the  
10 CPD, what data speaks to that in your opinion?

11 A. The failure to report speaks to that.

12 Q. Anything else?

13 A. Most of it. Oh, and also the number of  
14 records is very low. It is much lower than  
15 expected.

16 Q. Is that based on the number of DUIs in  
17 the state of Illinois?

18 A. Yes.

19 Q. Anything else other than your  
20 subjective failure to report and the number of  
21 records, anything else? Is there any other data  
22 that speaks to whether a code of silence exists  
23 in the CPD?

24 A. Not in this set of records.

1       A.    No.  He works for that agency so I  
2   assume he knows.

3       Q.    Did you read his deposition in this  
4   case?

5       A.    No.

6       Q.    would your opinion change if he  
7   testified that he didn't expect -- he -- strike  
8   that.

9            Do you know if he believed the lack of  
10   discipline caused him to drink and drive or not?

11       A.    I don't know.  I don't know anything  
12   about him.

13       Q.    would your opinion change if he  
14   testified that the lack of discipline wouldn't  
15   have mattered to him at all?

16       A.    No.

17       Q.    why not?

18       A.    It just wouldn't.

19       Q.    Does his thinking matter to you at all  
20   in your case, in your opinions in this case?

21       A.    Not what he says, I guess.  I don't  
22   know.

23       Q.    well, does it matter what he was  
24   thinking?

1 A. I don't know what he was thinking.

2 Q. well, does it matter to you what he was  
3 thinking?

4 A. I have to assume he was thinking that  
5 he worked for an agency that doesn't really  
6 discipline their officers and that's the way it  
7 is.

8 Q. what if the fact was he did not think  
9 that way?

10 A. I don't know.

11 Q. would it change your opinion?

12 A. No.

13 Q. So it doesn't matter to you what he was  
14 thinking?

15 A. If it is not in the reports, then I  
16 can't make any.

17 Q. Did you ever ask anyone what  
18 Mr. Frugoli testified to in this case?

19 A. No.

20 Q. On page 6, you start talking about the  
21 results.

22 A. Okay.

23 Q. In the middle of the paragraph that  
24 begins with Table 1 displays.

1 report as not being statistically significant.

2 why is it not statistically significant who  
3 failed to report?

4 A. That's what came out when you applied  
5 the statistic.

6 Q. Is that what that -- what was that  
7 program called?

8 A. SAS.

9 Q. SAS?

10 A. Yes.

11 Q. So you're just basically putting in  
12 there what SAS tells you to put in there?

13 A. SAS runs the statistical test by the  
14 computer. It is not done by hand. The computer  
15 does it.

16 Q. And the computer will tell you whether  
17 it is statistically significant or not?

18 A. Yeah.

19 Q. If it says it is not, then you put NS  
20 on it?

21 A. Right.

22 Q. Do you know how many of the 22 failure  
23 to reports outside of Chicago were charged by an  
24 investigating officer in the City of Chicago?

1 Q. Yeah.

2 A. Those are the officers that were named  
3 in the CRS that Frugoli was named in, but they  
4 weren't Frugoli. There were usually other  
5 officers with him.

6 Q. I guess what I'm trying to figure out  
7 is why it is 11 percent?

8 A. Because that applies to Detective  
9 Frugoli.

10 Q. And the 9 percent is the people that  
11 were charged with him?

12 A. Yes.

13 Q. Did you do any independent evaluation  
14 of any of the CRS involving Detective Frugoli as  
15 to whether or not they should have been  
16 sustained?

17 A. I don't know what you mean.

18 Q. Well, you don't have any background in  
19 determining when a CR should be sustained or  
20 not, do you?

21 A. No.

22 Q. So you don't have any opinion whether  
23 any of those CRS should have been sustained or  
24 whether they were properly not sustained, do

1 you?

2 A. No.

3 Q. I take that back. We got one more  
4 table. Table 13.

5 well, that just discusses the stuff we  
6 were just talking about, right? Yeah. All  
7 right. Part 3. The discussion. Again you  
8 wrote all of this yourself?

9 A. Yes.

10 Q. No one assisted you?

11 A. No.

12 Q. Okay. You say the most prominent  
13 finding related to the CR is that nearly half of  
14 the overall CPD members with a DUI CR resulted  
15 in reduced or no discipline.

16 Again, when you say nearly half, can  
17 you tell me what number you're talking about?

18 A. I think it was around 50 percent.

19 Q. And can you show me in Table 1 how can  
20 I calculate that 50 percent?

21 A. It might have been 40 something. I  
22 can't remember.

23 Q. well, you did say nearly.

24 A. I said nearly.

1       A.    So they wouldn't experience discipline.  
2   Detective Frugolis and the people named on his  
3   complaints.  So there is no discipline  
4   associated with any of these complaints because  
5   none of them were sustained.

6       Q.    But I asked you.  You have no reason to  
7   think that they should have been sustained, do  
8   you?

9       A.    It doesn't matter.  That's what they  
10   were reported as.  If they're reported as not  
11   sustained, they're not sustained.

12      Q.    well, if the true facts are that the  
13   conduct did not rise to the level of a  
14   violation?

15      A.    I can't say.  well, there was a --

16      Q.    You don't know one way or the other, I  
17   guess, is my point, correct?

18      A.    No.  Correct.

19      Q.    I'm just trying to get -- to understand  
20   these statements in your report.  So when you  
21   say something like even under extreme  
22   circumstances such as DUI, CPD members are not  
23   disciplined, you're not saying they are never  
24   disciplined, you're saying that it was reduced

1 Q. For other officers.

2 A. I don't know.

3 Q. Do you have any evidence that members  
4 of the Chicago Police Department are treated any  
5 differently by the court system?

6 A. No.

7 Q. Do you agree with me that all the DUI  
8 allegations in the CR files you reviewed were  
9 investigated?

10 A. Yes.

11 Q. And you agree that the vast majority,  
12 they were disciplined over and above whatever  
13 they were given as a sentence in the court  
14 system?

15 A. They were disciplined over and above  
16 what they were?

17 Q. I will just strike that and say do you  
18 agree with me that the vast majority of the CRs  
19 were -- resulted in discipline?

20 A. Yes.

21 Q. Let me look through my notes here.  
22 well, let me ask you a question about  
23 the American Statistical Association Ethical  
24 Guidelines for Statistical Practice. I just

1 were treated any differently in that regard?

2 A. Differently to who between who?

3 Q. As to a regular citizen.

4 A. I don't know.

5 Q. Do you agree with me that the best  
6 evidence of Detective Frugoli's state of mind is  
7 his own testimony?

8 A. I don't know.

9 Q. Are there any guidelines that you  
10 operate under when you answer the questions that  
11 are posed to you by the plaintiffs' attorneys in  
12 this case?

13 A. No.

14 Q. Is there any guideline to an  
15 epidemiologist when they're asked to consult  
16 like you've been asked in this case?

17 A. There may be. I don't know. I'm not  
18 aware of any.

19 Q. What keeps you from saying anything you  
20 want versus something that's reasonably  
21 reliable?

22 A. Well, the data has to be there. I am  
23 not just going to make things up.

24 Q. But the conclusions you draw from the

1 data, is there any guideline or standard that I  
2 can look at to say whether or not it is  
3 reasonable?

4 A. I don't think so. I don't know.

5 Q. Have you been asked to consult in any  
6 other legal cases other than the ones that  
7 you've been retained with Dr. Whitman?

8 A. No.

9 MR. ARGER: That's all the questions I have.  
10 Thanks for your time today.

11 MR. NEWMAN: I have a few questions.

12 MR. SORICH: Jim, I've got a couple. Why  
13 don't I ask before you go ahead here?

14 EXAMINATION

15 BY MR. SORICH:

16 Q. Just to clarify a couple of things.  
17 You were asked some questions about demographics  
18 of accused CPD members and it was in your  
19 report. Specifically, I'm looking at two pages  
20 prior to your signature. Do you remember when  
21 you were asked those questions?

22 A. Yes.

23 Q. And counsel asked you some questions  
24 about the distinction between the average age of

1 Q. You did not review any of the  
2 depositions in this case?

3 A. No.

4 Q. Didn't look at any of the reports for  
5 this case?

6 A. No. Well, the Roberts report.

7 Q. Judy Roberts' report?

8 A. Yes.

9 Q. You didn't review any of the police  
10 reports for the Frugoli accident, did you?

11 A. Yeah. They were included in the CR.

12 Q. Okay. I'm just trying to figure out  
13 all of your opinions in this case -- well,  
14 strike that.

15 You are not qualified to render any  
16 opinion as to what effect the code of silence  
17 had on the facts of this case, are you?

18 A. I don't know what you mean.

19 Q. Well, you're saying there is a code of  
20 silence based on the data you looked at, right?

21 A. Yes.

22 Q. My question is: Without an  
23 understanding of police practices and  
24 administrative investigations, you don't have
